EXECUTIVE COMMITTEE.

when completed, will at once materially add to the telegraph business of the country.—
The proposed routee of our range are an nually becoming more and more populous. Cheaper rates and more rapid, certain and creliable facilities will greatly popularize the telegraph and lneure its substitution for the telegraph and lneure its substitution for the mails for the purpose of current commercial correspondence. All these considerations point to our future as an important one, and plainly show that this is the world.
